The State of the Dead The Plaindealer publishes the following letter and comments :

NIANTIO, Nev. Sta 1859. PUBLISHERS PLAINDRALES-SIRE-I DOW

PUBLISHERS PLAINDEALES—SIRE-I now drop you a line to ascertain if C. W. Swartz and myself can obtain the use of your columns in the "Weekly," for a debate on the State of the Dead. In your reply state whether free or at what rates.

Yours say truly, J. H. Dournitt.
P. S.—Address J. H. Dauthitt, Niantic, Manon County, III.

Our terms are ten dellars a line, solid agate, for discussions on the dead, which is considerably less than our price for discussions on the living, as there is not so much danger of libel suits and assaults from the former class. If these terms are satisfactory, we must insist that the disputants avoid breathing thoughts and living truths, condining themselves strictly to grave reasoning and dead shots.

Genever Surve .- The New York Tribune

of Saturday says : We yesterday saw a letter from the resident physician of the Utica Asylum, dated the 21st, which says that Gorrits Posts quatinues to improve. On the previous exening he went six hours continually. He has begun to realize his condition fully, and appreciates the importance of his medical rentment, as well as acquiesces in all the neans used for his restoration. Information from Peterboro is to the effect that his family GOOD NEWS, GOOD GOODS! regard his oure as certain.

A Touching Schne The Washington correspondent of the Baltimore Sun says: Exceedingly affecting were the funaral services of the late Mrs. Dr. Grymes, at Trinity Church. Less than a year since the doctor led one of our lövellest girls full of life and hope, to the alter of that church, and in the presence of a large assemblage they were joined in holy wedlock. Now attired in her full bridal dress, with a babe resting on her arm, the mother and child resting on her arm, the mother and child appeared to be enjoying a sweet sleep. At the head of their coffin, too, was the iden-tical wreath of flowers worn at their nup-tials. The bride had faded away and the flowers were withered.

Porter's Spirit of the Times announces that Colonel Colt has invented a revolv ing shot gun. The Spirit says:

"Upon a late trial of this valuable gun at a distance of thirty yards it put 175 pellets in a circle of 12 inches diameter, penetrating 75 sheets of ordinary brown paper, the shot used being No. 6 shot, 11 ounces and two drains of powder to each charge. The gun is a five shooter, and is finished in fine style. The cartridges are manufactured to suit the gun, and are impervious to the effeets of water or dampness."

party, and returned home at a late, or rath.

ATHE Ague Cure.

Intermittent Fever or Fever and Agne,
Remittent Fever, Chill Fever, Dumb
Agne, Periodical Headache, or Bilious
Headache, and Bilious Fevers; indeed
for the whole Class of Diseases originating in biliary decangement, caused
by the Malaria of missmatic countries.

by the Malaria of minamatic countries.

No one remedy is londer called for by the necessities of the American people than a sure and safe cure for Fever and Agne. Such a remedy we are now enabled to offer, with a perfect certainty that it will eradiente the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or peevents this disorder must be of immense service in the communities where it prevails. Presention is better than cure, for the patient escapes the risk which he must run in violent attacks of this bateful distemper. This "Cure." expels the minimate poison of Fevera and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the better monitory symptoms. It is not only the better mendy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fevera and Acute prevails, every leady should have it, and use it freely, both for mounting in the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermitments, that it contains no quintee or mineral, consequently it produces no quintee or mineral, consequently it produces no quintee or mineral, consequently it produces no quintees or mineral, consequently it produces no provided that the constitution. Those cured by it are left as healthy as if they had never had the discose.

Fever and Ague is not alone the consequence.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Paintal Affection of the Spieen, Hystories, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all slike. It is an invaluable protection to immigrants, and persons travelling or temporarily residing in the malarious districts. If taken occasionally, or daily, while exposed to the infection, that will be exercised from the system, and cannot accumulate in afficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC

FOR ALL THE PURPOSES OF A FAMILY PHYSIC are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleaned, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is howed down with pain or physical debility is setomished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache origing from disordered Stomach, Namea, Indigestios, Pain is and Marbid Inoction of the Bowels, Flutulery, Loss of Appetite, Jamadice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled Dealers with some other pill they make more profit on. Ask for Axen's Princip and tothe profit of the princip and the complaints, arising from a low state of the body or obstruction of its functions.

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the Disease.

Disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cares too numerous and too remarkable to be forgotten.
